

Serial No. 10/694,662

REMARKS

Election of claims 4-6 is hereby made, subject to traverse.

It is respectfully submitted that even if the process could be used to make a materially different product, it will be necessary to search and examine the product of claims 1-3 in order to search and examine process claims 4-6. Additionally, it is believed that to do a complete examination of claims 4-6, search of the preferred product of claims 1-3 would also be required. In this regard, the Examiner has not indicated that any extra effort would be required for searching or examination, or the like.

Thus, for patent office economics and efficiencies, the restriction requirement should be withdrawn.

Favorable consideration and allowance are respectfully requested.

Respectfully submitted,

Peng-Ying Hao
